

**Your 24-Hour Public Accounting package includes all of the following courses:**

**A Fraud Update for 2009: New Approaches To Detecting And Preventing Fraud (ADPF) (CPE Credit: 2 hrs., Auditing):** This course discusses the areas in which SAS No. 99 has and has not been successful. It also points the way to forensic accounting as the key to more effective auditing for fraud. The CPA's newly codified responsibilities regarding fraud in review engagements are also presented and evaluated.

**Understanding Fin No. 48: A Practical Guide to Accounting for Uncertain Tax Positions (AUTP) (CPE Credit: 2 hrs., Accounting):** This course provides the CPA with an in-depth understanding of accounting for uncertain tax positions and guidance on implementing this difficult and complex standard. It is a must for accountants in public practice and industry as well as tax professionals who must work together to implement the FIN No. 48 standard.

**OCBOA: A Guide to Cash and Tax Basis Accounting (CTBA) (CPE Credit: 2 hrs., Accounting):** CPAs who prepare and report on financial statements for their small business clients need to be aware of the non-GAAP reporting alternatives that are available. This course provides a guide to OCBOA reporting, suggesting the circumstances in which it is appropriate.

**Accounting Standards Update for 2009: What Is Happening at the FASB (FAS2) (CPE Credit: 2 hrs., Accounting):** This course provides the CPA with an update on the most recently issued FASB standards. This review will provide an explanation of the purpose and likely impact of each standard, together with implementation examples and guidance. Emphasis will be placed on the impact of these standards on preparers and users in both large and closely held companies.

**The CPA's Guide to Successful Financial Planning Strategies and Concepts (GSFP) (2 hrs., Finance):** This course describes, in some detail, the financial-planning process. The material includes a working definition of financial planning and a discussion of the importance of a professional team approach to serving a client's needs. Further, the course walks through the many steps in the process of financial planning with a focus on information gathering and goal setting.

**How to Settle an Estate – An Overview (HSEO) (2 hrs., Taxes):** This course discusses the legal issues in probating and contesting a will, plus the practical issues involved when settling an estate - marshaling of assets, payment of creditors, and distribution and accounting to beneficiaries. Inventory of estate assets is also discussed.

**The Top 50 Mistakes Practitioners Make and How to Fix Them: Individual Tax and Financial Planning (INBB) (8 hrs., Taxes):** For CPAs, mistakes can be costly and damaging to both the practitioner and client – especially in light of new preparer penalties. Uncover significant errors that have been made in the past and learn to avoid the BIG mistake and get your clients the best planning strategies.

**Professional Developments Update for 2009 -- Recent Events in the Business World and Their Effect on the Accounting Profession (PDEV) (CPE Credit: 2 hrs., Accounting):** This course provides an up-to-the-minute survey of professional and

regulatory developments in the world of accounting and auditing and explains how engagements will be affected by key risk factors and suggested strategies.

**Tax Positions: An Integrated Approach to Ethical, Independence, and Financial Reporting Issues (TPOS) (2 hrs., Accounting):** This course provides the CPA with an in-depth understanding of the interrelated tax, ethics, and reporting dimensions of recently enacted changes in the 'tax position' area.
